## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2, 5-6, and 9-10, drawn to a deviation of an output of a controlled object from a predetermined target value, classified in class 701, subclass 103.
  - II. Claims 3-4, 7-8, and 11-12, drawn to a detection signal indicative of an air/fuel ratio of exhaust gases which flow through an exhaust passage on an engine, classified in class 701, subclass 109.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of Group I and Group II can be used in a materially different processing.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their difference classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and Groups I and Group II are individually separated and distinct from each other.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purpose as indicated is proper.

Art Unit: 3747

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
